

Cyprus China Business Association (CyChiba), under the auspices of the Cyprus Chamber of Commerce and Industry (CCCI) has been one of the most important partners of the Chinese Embassy in Cyprus ever since it was established.

CyChiba plays a significant role in acting as a business bridge between Cyprus and China as well as strengthening bilateral economic and trade relations through various activities. The Chinese Embassy will continue its efforts in collaboration with CyChiba to provide even better services to enterprises in both countries.

The world's business environment has undergone profound changes with the economic tides rising and falling. The political relations between China and Cyprus enjoy a solid foundation and strong economic complementarity which brings us a great potential for further widening and deepening pragmatic cooperation. There are good conditions for the cooperation between our two countries in the fields of infrastructure, financial services, maritime shipping, renewable energy. Currently, the number of Chinese citizens who come to Cyprus for investment, study and tourism is increasing and our two countries are faced with new opportunities for cooperation in trade, education and tourism. It is my belief that under the common efforts of both sides the cooperation between China and Cyprus will continue to achieve new progress and Win-Win situation for mutual benefit.

The Chinese Embassy is devoted to promoting bilateral business exchanges and exploring cooperation opportunities and would like to provide you valuable assistance and helpful suggestion and other services.

Wish you every success!

Liu Xinsheng

Ambassador of the People's Republic of China to the Republic of Cyprus
